Trade Price Adjustment – 1st April 2021

Dear Valued Customer

We have endeavoured to limit any price increases as much as possible. Our last price adjustment was in August 2019. In that time we have seen multiple increases from our competitors. We have also absorbed the below increases in materials;

27% Increase in Steel

24% Increase in Aluminium

26% Increase in Stainless Steel

Due to these increases we now find it necessary to implement a price adjustment. The trade price list will be increasing by an average of 14% across our product range effective 1st April 2021.

We thank you for your understanding and continued support. We remain committed to providing you with quality products, technical support and the highest level of service.

If you have any questions, please contact the Burndy Sales Team for further information

Yours faithfully

Peter Daly

Managing Director
