

22<sup>nd</sup> March 2021.

Dear Trade Partner,

Due to continued and unsustainable raw material cost increases, such as copper and aluminium, it has become necessary for SAL to review our Trade Price List.

A price change will be effective **Monday 3<sup>rd</sup> May 2021** and apply to all orders despatched after this date.

It is anticipated that the change will be an increase in the region **8%**, which may vary by product.

Once finalised, a new electronic price file will be provided to you.

Thank you for your ongoing support of SAL.

My contact details listed below are available to you should you have any questions in the meantime.

Regards

John Attlesey
