Re: Price change notification

I'm writing to advise that, effective **1st May 2026**, Haneco Lighting Australia will be implementing a price adjustment across our product range.

This change is driven by ongoing inflationary pressure on our labour, energy and logistic costs, in addition to raw material and component cost increases.

We have not issued a price increase since mid-2022 and have absorbed these pressures for as long as possible; however, it is now necessary to pass on a portion of these costs. The weighted average increase across the portfolio will be around **4.5%**.

We remain committed to supporting our wholesale partners with strong local stock availability, consistent supply, and experienced people on the ground in every region. Continued investment in these areas is a priority for us, and we believe it's what allows us to deliver reliably, both now and into the future.

The updated price file will be provided by 1st April to allow sufficient time for pricing to be loaded ahead of the 1st May effective date.

If you have any questions, please feel free to contact me directly.

Regards,

Rod Edwards

Sales Director
